

2004 Gippsland GA-8 Airvan

Highlights:

Gippsland GA- 8 Airvan is a rugged, high-payload utility aircraft designed for demanding operations. The Airvan offers excellent short-field performance, exceptional cabin volume, and a large cargo door, making it ideal for charter, safari, skydiving, freight, and special-mission roles. Powered by a reliable Lycoming IO-540 and constant-speed propeller, it delivers strong low-speed handling, high useful load, and proven reliability in hot-and-high environments.
