

## 2005 Gippsland GA-8 Airvan

### Highlights:

The Gippsland GA-8 Airvan is a rugged, high-payload utility aircraft built for demanding operations. It combines excellent short-field performance with exceptional cabin volume and a large cargo door, making it well suited to charter, safari, skydiving, freight, and special-mission work. Powered by a dependable Lycoming IO-540 with a constant-speed propeller, the Airvan delivers strong low-speed handling, high useful load, and proven hot-and-high capability.
